Report of Health Officer

The following cases were reported during the year:

Whooping cough	7
Measles	1
Chicken pox	4
Syphilis	1
Dog bite (Rabies)	1
Tuberculosis	*2

*One case was found not to be T. B. when examined at State Sanitarium.

Complaint was made of garbage and rubbish being left on the beach at White Sands, Silver Lake. This was cleaned up and rubbish barrels placed there, which relieved the situation to a great extent. The closing of ponds, in nearby Massachusetts towns to bathers caused a great increase in the number using the Silver Lake, with consequent increase in nuisances of various kinds involving both the Health and Police Departments.

Report of the Superintendent of Schools

To the School Board and Citizens of Newton:

It is a pleasure to present to you my fourth annual report as Superintendent of the Newton Schools. Reports are also presented by Mrs. Eva W. Thompson, Supervisor of Music, and Miss Helen Thomas, School Nurse.

There were 138 pupils enrolled in our schools last year (this is 8 less than during the year ending in June, 1929). The attendance averaged 95.5% of the membership. This figure is about equivalent to the average for the state during this period. Eleven pupils were neither absent nor tardy during the year. In the matter of tardiness our record was not so good.

Your attention is called to the table of statistics at the end of this report. It contains detailed information about the schools not easily printed in any other form.

The following table shows the attendance in the Newton elementary schools during the last five years and is presented to show the trend of our school population.

Number of pupils enrolled in 1926	133
Number of pupils enrolled in 1927	141
Number of pupils enrolled in 1928	186
Number of pupils enrolled in 1929	146
Number of pupils enrolled in 1930	138

Thirteen pupils completed the work of the eighth grade and twelve of these entered High School last Fall. These figures bear out the contention that parents with very few exceptions wish for their children the benefits of a High School training.

There were two changes in the teaching staff at the opening of school in September. Miss Ruby Gustafson and Miss Ruth Morrison were appointed to take the positions at Rowe's Corner made vacant by the resignations of Miss Edith Caverly and Mrs. Gilman.

It is gratifying to know that the health instruction offered in the schools is actually improving the health of the pupils and the parents, teachers, school nurse, and pupils are removing many of the physical defects that hinder the mental and physical growth of the boys and girls in our schools. Local organizations have often assisted the school nurse financially in her work. This assistance has been used to remove adenoids and tonsils; glasses have been secured in a few cases. Statistics concerning this work will be found in the school nurse's report.

It is continually necessary to buy new text books. As old books wear out they are replaced by those that better meet the general educational conditions. We have during the past year bought new Health books, Geography, History and Reading books.

Schools are continually changing in curricula, methods, and management. If this were not so the educational system of a community would soon lose the support and confidence of its people. The Program of Studies for grades 1-6 has been revised by the State Board of Education and was distributed

during the Fall of 1930. The new program is greatly appreciated by the teachers.

According to our tests, steady improvement is being made in the routine work of the schools. Our principal difficulties are in adapting work to the individual differences found among the children. Both achievement and mental tests have been given. These tests are of great help to the teachers and give them a better understanding of both class and individual needs.

Previous to the adoption of our present school calendar, schools were in session about 338 half-days. Last year we had 354 half-days or an increase of about a week and a half. The average for the state was 355 half-days.

The re-modeled school building at Rowe's Corner has given two very fine class rooms. 50 children have been in attendance this year.

New desks for the pupils were installed during the summer at Newton Junction. A "Jacketed Heater" replaced the old box stove. Both of these changes have improved the class room. When the money can be spared for it, this school should have chemical toilets and more and better arranged windows.

29 pupils from this town are attending High School. There will probably be a larger number next year.

The per pupil cost in our schools is still well below the average cost for the state as a whole.

At institutes held in various parts of the state last Fall, a Headmaster of a High School was among the speakers. These Headmasters were all of the

opinion that the product from the rural school, found in High School is equal in general ability to that coming from the Village Schools. They believed it surpasses it in responsibility, in power to work independently and in general ambition.

The work in all our schools appears to be of a good grade this year. This is due chiefly to the ability of the teachers in no small degree, also to the fine spirit and interest shown by the citizens as well as the school officials. In closing I wish to express my thanks for the hearty support of parents, teachers, and School Board in the work of the past year.

Respectfully submitted,

WILLIAM J. NELSON,
Superintendent of Schools.

Report of Supervisor of Music

To the Superintendent and School Board:

I have the honor to submit my first report as Supervisor of Music in the Newton Schools.

The work in music is being carried on in the following manner. The supervisor visits each room once a week, outlines the lesson for the room teacher and presents step by step the music problems throughout the course.

The text books are from the "New Educational Music Course," by Ginn & Company. Rote songs for the first grade are taken from "Songs of Childhood" the first book in this course. Note reading is introduced in the second grade and carried on with simple rhythm studies in grade three. "Introductory Music" is being used in these grades. In grades four and five "Elementary Music" supplies studies in chromatics, and more difficult rhythms. "Intermediate Music" a book of interesting two and three part songs is being thoroughly enjoyed by the students in grades six, seven and eight.

It has been most gratifying to note the keen enthusiasm the boys and girls have shown in their music thus far. The excellent co-operation of the teachers I appreciate deeply, as a large percentage of the success of the work is due to their constant helpfulness.

Respectfully submitted,

EVA W. THOMPSON,
